Optical Interconnect Component

Make Connections Much Simpler

CONTENTS

Content	Page
Single Mode Parallel Optical Component Series	pg.01
FA (TX) + FSI / FA (RX) + Lens	pg.01
Z-block Optical Engine Product	pg.02
Large Channel High-Precision Polarization-Maintaining Optical Interconnection Component	pg.02
2D Fiber array / M*N FAU	pg.03
Multimode Parallel Optical Component Series	pg.03
AOC Active Optical Interconnect Component	pg.04

Single Mode Parallel Optical Component Series

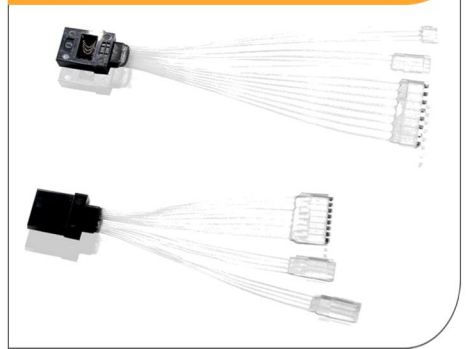

MT-4*FA

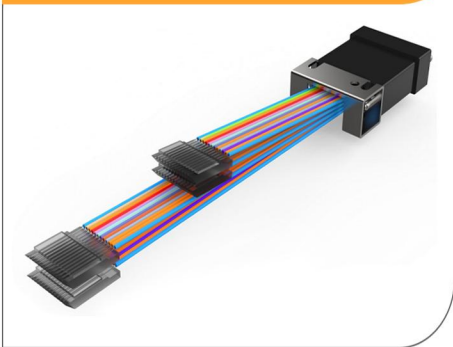

MT-2*FA FSI

MT -3*FA FSI

48F MT-4FAU

Applications:

Suitable for single-mode medium-to-long reach DR4/DR8 series 800G/1.6T pluggable high-speed optical modules.

FA (TX) + FSI / FA (RX) + Lens

Applications:

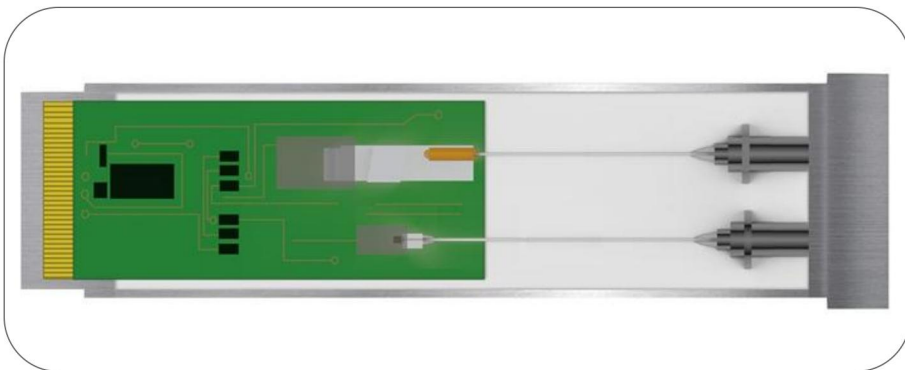

Suitable for single-mode medium-to-long reach DR4/DR8 series 800G/1.6T silicon photonics high-speed optical modules.

Z-block Optical Engine Product

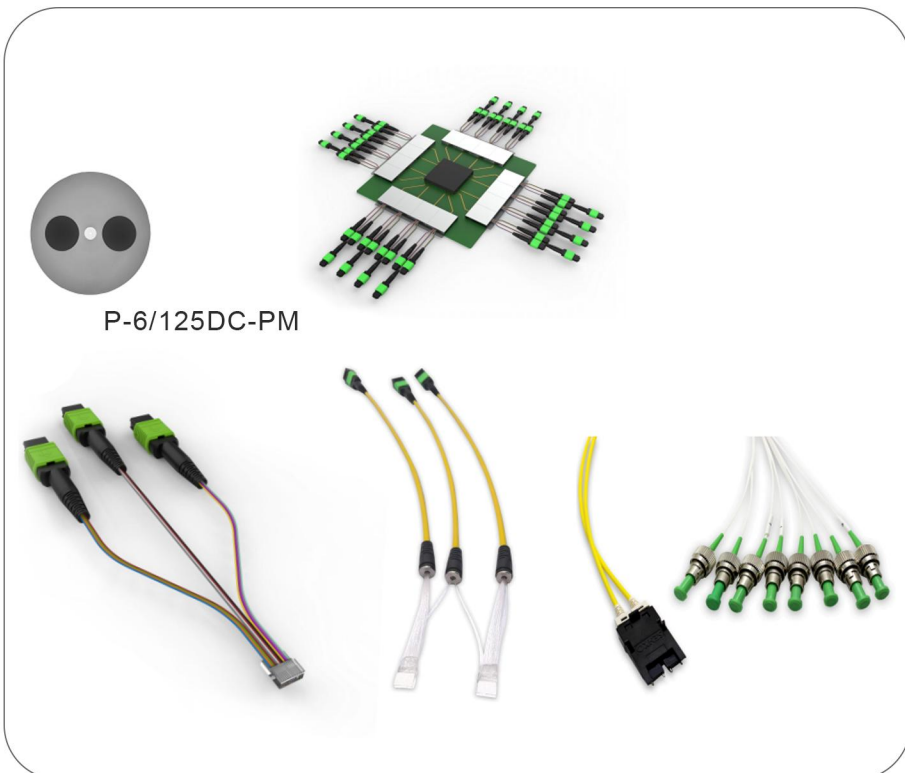

Applications:

Suitable for single-mode long-reach FR/LR/ZR series 800G/ 1.6T pluggable high-speed optical modules.

Large Channel High-Precision Polarization-Maintaining Optical Interconnection Component

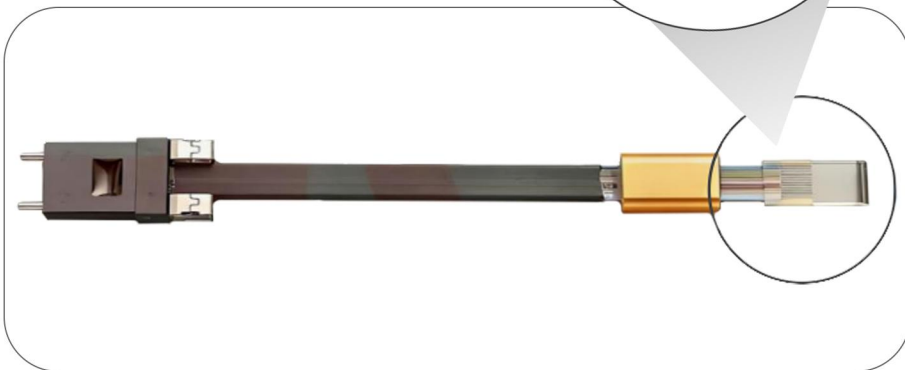

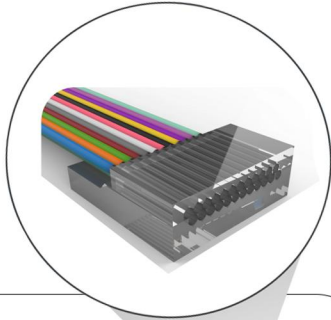

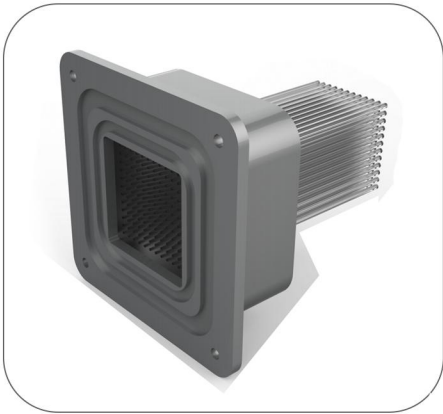

P-6/125DC-PM

Applications:

Suitable for Co-packaged Optics (CPO)

2D Fiber array / M*N FAU

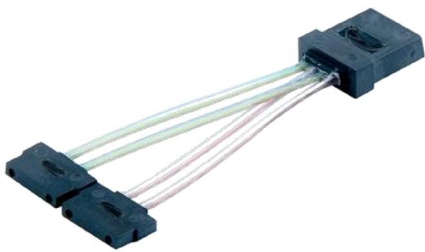

Applications:

Suitable for OCS All-Optical Switch

Multimode Parallel Optical Component Series

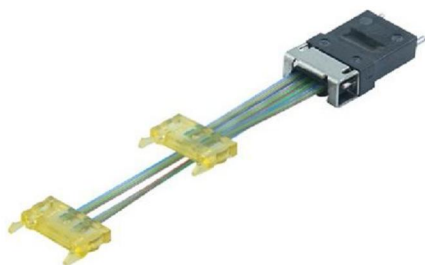

MT-2*MT

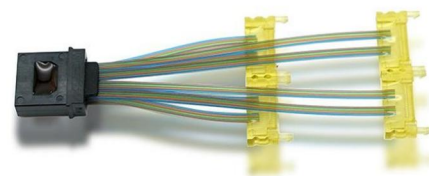

MT-2*MT

MT - 2* Jumper

MT - 4* Jumper

Applications:

Suitable for multimode short-reach SR4/SR8 series 400G/800G pluggable high-speed optical modules

AOC Active Optical Interconnect Component

MPO-FA FSI

MPO Y Cable

Jumper AOC

MT AOC

Applications:

Suitable for 400G/800G/1.6T Active Optical Cables (AOC) and intra-connection within AI computing centers

SUN CONEC

-Singapore & Malaysia-

Sale and Service

"Integrity in Sales, Excellence in Service."

Trust is the foundation of our growth. By prioritizing superior quality and responsive service, we build lasting relationships with our clients.

Our unwavering commitment:

"To cooperate sincerely and share prosperity with all partners."
